79%
employee engagement

78%
workplace behaviours and conditions

74%
workplace diversity

16.6
training days per FTE

Delivered Tasmania's largest audit in-house

The Hydro Tasmania audit was delivered predominantly by our own staff, reducing our reliance on external providers and strengthening our in-house expertise.

Invested in innovation

Implemented four new technology and AI-enabled audit platforms to improve efficiency, audit quality and insights.

Prepared for sustainability assurance

Completed three sustainability assurance engagements and developed our methodology to support the expansion to eight entities in 2026-27.

Strong engagement with Parliament

Our work continues to be valued, with 96% of parliamentarians agreeing that Audit Tasmania contributes to public sector accountability.
